

The first meeting of the school year was held by the Kimball PTO on September 11, 2017 in the school cafeteria.

In old business the summer fundraiser, "Pie and a Pint", was held during the Keep it In Kimball celebration. \$756.62 was raised during this fundraiser. Membership, Bylaws, and 501c3 status was discussed and tabled until a later date.

The PTO, in cooperation with Kim Rikken, Kimball School Librarian, discussed the upcoming Washington Pavilion Wire Sculpture class taking place at Kimball School Friday, September 15th. As of the meeting time 40 students were signed up to participate.

Kimball PTO will be sponsoring the Dakota Discovery Planetarium out of Pierre to come to Kimball School on October 3rd. This is a wonderful opportunity for students K-6 to learn from and experience an interactive Science program.

Tentative kick-off dates for 2017/2018 Lego Club will be October 11th and October 18th. Location, theme, etc. will be forthcoming.

Those in attendance at this month's meetings also discussed some brainstorming ideas that PTO could implement in the future. Some ideas included a backpack program, Angel Tree, another Science based Washington Pavilion Science Lab or Robotics course, Photo club, Father/Daughter Dance to be held the day after prom, Mommy and Me cooking classes, and continued teacher/staff appreciation.

The next meeting is set for October 10th at 7:00 pm. Tentative location is school cafeteria. Thank you for those who attended this month. All are welcome!
